

## CEILING FAN REMOTE CONTROLLER OPERATION AND INSTALLATION INSTRUCTIONS

### IMPORTANT

Please keep this instruction information on how to operate your remote.

### IMPORTANT POINTS TO REMEMBER:

- Read and save these instructions.
- Please note that all fixed wiring appliances should be installed by a qualified electrician.
- The supply to the remote control receiver should be connected through a mains switch, i.e. existing wall switch.
- Disconnect from power supply at wall switch before working on remote control receiver or ceiling fan.
- Install receiver into the ceiling fan canopy of the fan to ensure proper protection.
- This unit is to be used for the control of ceiling fan and in a AC230/240V 50Hz power supply only.
- Do not install in damp locations or immerse into water. (For indoor use only.)
- Do not pull on or cut electrical cord shorter.
- Please dispose of used batteries properly and keep batteries out of reach of children.

### INSTALLATION INSTRUCTIONS

1. Ceiling fan must be set at HIGH speed and light kit (If fitted with a light kit ) at "ON" position by switching the switch to on position after installation.
2. Once the connection has been made, the receiver inserts into the drop rod hanging bracket. The canopy comes up to cover the receiver and bracket.
3. Please make sure the antenna wire has been safely folded inside the canopy cover before final assembly.

#### RECIEVER INSTALLATION DIAGRAM:

#### RECEIVER WIRING DIAGRAM :

## CODE SWITCH

1. **CODE SWITCH:** Codes are set by pushing dip switches up or down. It is imperative that the code used for both transmitter and receiver is exactly the same; otherwise remote controller will not work. Please note the code switch will enable you to operate a second remote controller independently. For example, if you have two ceiling fans with 2 remote control units, set 2 different codes for each set of transmitter/receivers. This means you can operate each ceiling fan independently.
2. Your remote control is ready for use after batteries are installed. ( 2 x1.5V/AAA Batteries Included)

## FUNCTIONS OF TRANSMITTER

**FAN/OFF** : Turn off the ceiling fan.

**H** : Turn on the fan at high speed

**M** : Turn on the fan at medium speed

**L** : Turn on the fan at low speed

**TIMER (1H to 8H)**: When fan turned on, press this key for set timer 1 to 8 hrs. for turning off. For example, set 1hr. that the ceiling fan will turn off after 1 hour automatically.

**LIGHT ON/OFF** : Press and release immediately to turn on or off the light

## TRANSMITTER

**TO BE INSTALLED BY A  
LICENSED ELECTRICIAN**

Installation of  
transmitter wall mount  
holder with two screws.

## MARTEC PTY LTD: 1 YEAR IN HOME WARRANTY STATEMENT\*

### WARRANTY STATEMENT:
