Qty 4 x Blade support part
Qty 4 x Blade bracket

Qty 1 x LED light kit (with light models only)
Qty 1 x Acrylic lampshade(with light models only)
Qty 1 x Bottom plate (no light models only)

Application

Flat Surface/Ceiling	Slope ceiling up to 15°	Corrugated Ceiling	Apex ceiling

IMPORTANT SAFEGUARDS:

Means for disconnection must be incorporated in the fixed wiring in accordance with the wiring rules.

The replacement of parts of the safety suspension system device shall be performed by the manufacturer, its service agent or suitably qualified persons.

The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
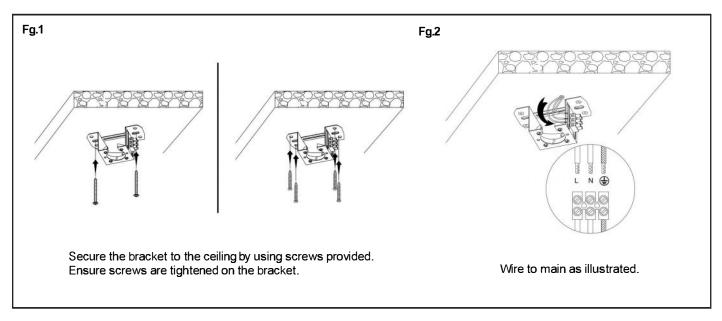

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

- the fixing means for attachment to the ceiling such as hooks or other devices shall be fixed with a sufficient strength to withstand 4 times the weight of the ceiling fan;

- that the mounting of the suspension system shall be performed by the manufacturer, its service agent or suitably qualified persons;

- that the fan is to be installed so that the blades are more than 2,1m above the floor.
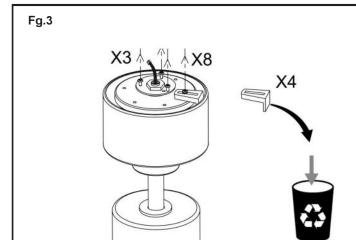

WARNING: If unusual oscillating movement is observed, immediately stop using the ceiling fan and contact the manufacturer, its service agent or suitably qualified persons.
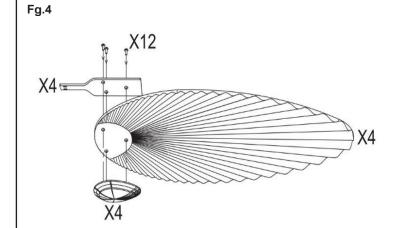

How to Assemble

Fg.1

Secure the bracket to the ceiling by using screws provided.
Ensure screws are tightened on the bracket.

Fg.2

Wire to main as illustrated.

How to Install

Fg.3

X3 X8

X4
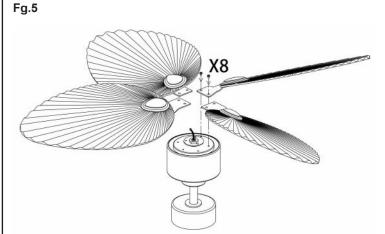

1. Remove 11 screws on the motor as illustrated.

NB: Ensure all screws are carefully put aside.

2. Remove 4 plastic inserts on the motor before installing the blades.

How to Install Blades

Fg.4

X12

X4

X4

X4

Install the blades as illustrated.

Fg.5

X8

Install the blades to the motor with screws provided. Tighten screws securely. Repeat this procedure until all blades are installed.
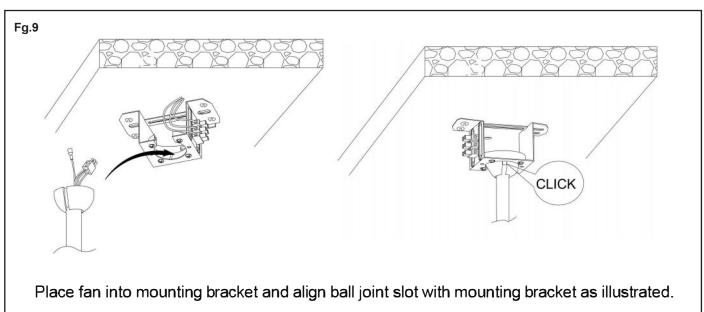

NB: Ensure the blades do not get damaged or bent during the installation process while the fan maybe on the ground this will affect the performance and balance of the fan and this is NOT covered under warranty.
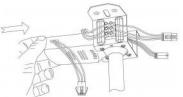

How to Install Light Plate

Fg.6

Fan and LED Light Model

Connect LED light with motor by using quick plugs.

Install the LED light kit to the motor with 3 screws as illustrated.

How to Install

Fg.9

CLICK

Place fan into mounting bracket and align ball joint slot with mounting bracket as illustrated.
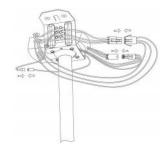

How to Install

### Fg.10

Fan Only Model

Carefully insert and install the receiver into the mounting bracket.

Connect all connectors as illustrated.

Fan and LED Light Model

Carefully insert and install the receiver into the mounting bracket.

Connect all connectors as illustrated.

Wire up the receiver with quick connectors and insert into the mounting bracket. Make sure the antenna wire has been safely folded inside the canopy cover before final assembly. (DO NOT cut the antenna wire)
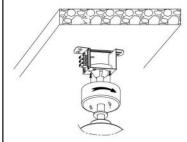

Important Reminders

Receiver must be correctly installed in the mounting bracket
When the transmitter cannot control the receiver, please check

i) has sufficient battery in the transmitter

ii) any existence of similar remote controlled products nearby that cause interference

Replace battery if getting low as this will affect sensitivity of the transmitter
Take the battery out from the transmitter when leaving used for a long time to avoid battery leaks
Isolation switch MUST be connected in the line
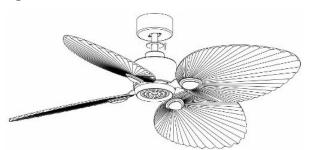

How to Install

Fg.7

Fg.8

After wiring is completed, attach the canopy to the mounting bracket by pushing upwards and twisting anti clockwise. Tighten screws and ensure canopy is not touching the ball joint.
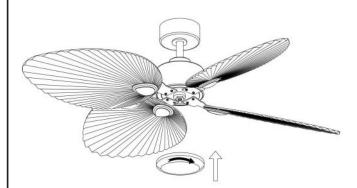

Attach the decorative ring of the fan as illustrated.

How to Install

Fg.9
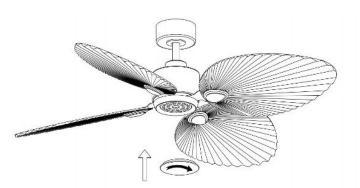

Fan Only Model

Fan and LED Light Model
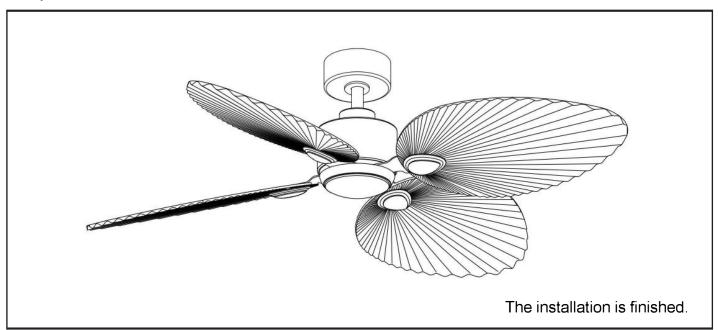

Twist bottom plate on to motor shaft thread.

Hold the diffuser to the bottom of the motor and rotate clockwise until it locks into place.

WOBBLE:
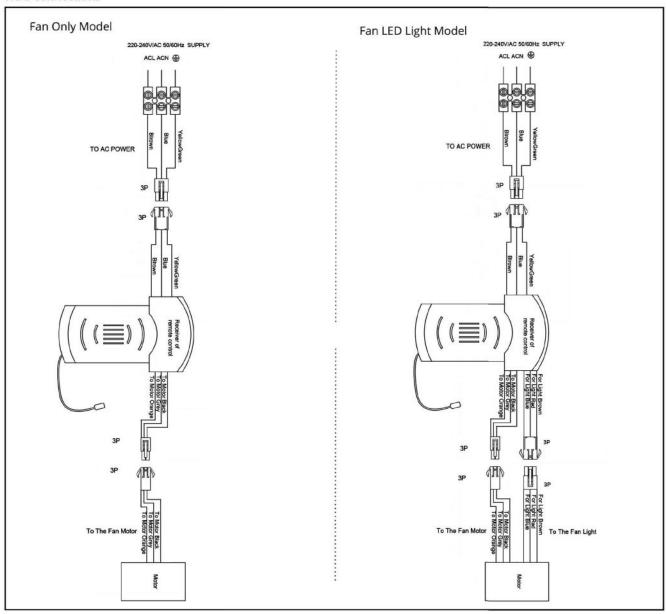

- Ceiling fans are designed to move during operation because they are not generally rigidly mounted
- Movement of a couple of centimetres is acceptable for safe operation.
- Balancing kits included should be used to adjust the balancing when first installed.

Complete

The installation is finished.

- **DO NOT** mix blades from one model to another, all blades MUST be replaced if damaged.
- The warranty is **VOID** if product is not installed according to this installation guide.

Smart Life matching process, please follow the steps:

1.Download the "Smart Life" APP on your smart devices by scanning the QR code below with camera.

2.Turn on WiFi and Bluetooth on your smart devices. Ensure it's connected to a 2.4GHZ WiFi.

3.Open the APP, follow the steps to register new user account or login existing account.

4.Follow instructions in main manual (steps can also be found on the back of the remote) to put the fan into WiFi pairing mode. If the operation is successful, go to step 6. If the fan has previously been paired or you can't get it to work, please go to step 5 to RESET the fan.

5.RESET the fan. This step is NOT necessary if the fan has successfully entered WiFi pairing mode in the last step, if not, try to RESET the fan: turn on the fan, power off after 10 seconds, power on again after 15 seconds, long press "Fan Stop" for 5 seconds, if "beep beep" are heard, the reset is successful. If "beep beep" is not heard, the reset is failed, please repeat this step.

6.Once the fan has entered WiFi pairing mode, open the APP again on the smart device. Click "Add Device" in the middle or the "+" on the top right of the screen.
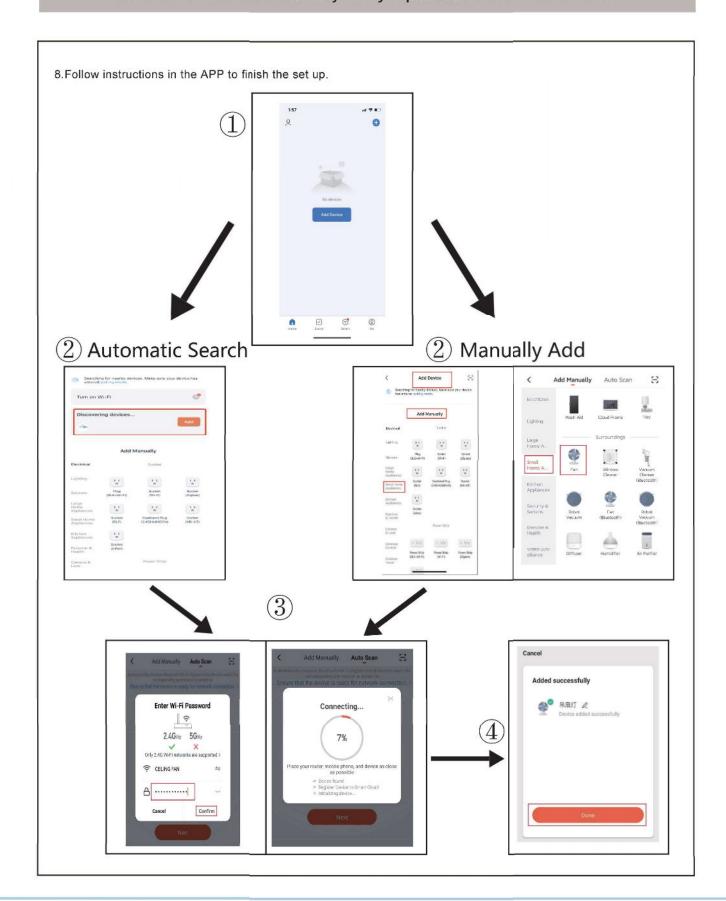

7.The auto scan should begin automatically, and the fan should show up at the top of screen within a few seconds.

Note: If the fan is not showing up, you can add it manually by clicking and navigate to: >Add Manually >Small Home Appliance > Fan

8. Follow instructions in the APP to finish the set up.
